## SUMMARY

Results-oriented Software Engineer with expertise in web development, API integration, and digital solutions. Proficient in creating user-friendly websites, designing interactive content with Canva, and developing responsive frontend interfaces. Passionate about enhancing operational efficiency and client satisfaction through technology, research, and content creation. Committed to continuous learning and aligning with VIZX's vision of innovation and excellence in outsourcing solutions.

## JOB EXPERIENCE

### APLANCE AGENCY
*Fullstack Developer & Designer*
*MAY 2025 – Present*

- Created high-quality, interactive graphic designs including posters, adverts, and logos for Aplance Agency clients, ensuring brand consistency and visual appeal.

- Developed the FireOrion POD Print On Demand web application, designing its UI and contributing to both frontend and backend development using Figma, React, Express, and MySQL.

- Developed WordPress websites for Fiverr platform clients, optimizing for performance and user experience.

### ALPHANEX SOFTWARE LIMITED – PROFESSIONAL ATTACHMENT
*Fullstack Developer*
*May 2024 - Aug 2024*

- Developed UI designs for mobile and web applications using Figma, ensuring user-friendly and intuitive interfaces.

- Contributed to designing interactive company adverts and promotional materials using Canva, enhancing brand visibility.

- Implemented responsive frontend development, ensuring seamless functionality across various devices and screen sizes.
